WHO IT'S FOR

Built Around How You Run Golf

Three organizations, three different shapes of the same problem. Here is where each one usually lands.

Tournament Organizations

USUALLY ENTERPRISE

Junior tours, associations and multi-event circuits. Spreadsheets cannot carry merit points across a season, seed a bracket, or show a live standing to a parent at home.

- Multi-event seasons and tours
- Order of Merit and academy standings
- Qualifiers, regions and sub-divisions
- Divisions, flights and match play

Golf Courses

EITHER

Single courses and multi-property groups. Run a one-off tournament self-serve, or bring memberships and member records into one system alongside your events.

- Host and run course tournaments
- Sell and manage memberships online
- White-label branding and public pages
- Budget and financial planning

Fundraising Events

START ON PLAY

Charity scrambles start free on Play — more of what you raise goes to the cause. Move to Enterprise when you need donation campaigns and charitable tax receipts.

- Beautiful public event pages
- Donation tracking and tax receipts
- Sponsorship tiers and packages
- Real-time fundraising dashboards

Let's find the right fit

Start a tournament yourself in minutes, or book a walkthrough and we will show you the season view.
